RUBBER CHEMISTRY AND TECHNOLOGY VOLUME XXXVII, 1964

AUTHOR INDEX

	Page		Page
ABRAHAM, H. Asphalts and Allied Substances, Book, 2nd issue, Part I.....	xx	BRIGGS, G. J., D. C. EDWARDS, AND E. B. STOREY. Accelerated thermomechanical testing of vulcanizates.....	134
ACS Philadelphia Meeting Abstracts, Book, 2nd issue, Part I.....	xxiii	BRISTOW, G. M. Scission by sol-gel analysis in peroxide cure of NR.....	904
ADAMS, ROGER. Biography of Wallace Hume Carothers, 1st issue.....	xxviii	BROWN, R. W. Obituary of Louis H. Howland, 4th issue.....	xl
AKKERMAN, F. H. D. Flexcracking of polymers.....	186	BRUZZONE, M., AND G. MODINI. Mineral oil composition and elastomer interaction.....	451
ALBIN, J. R., see Wolfe, T. R., Jr.		BUCKLER, E. J. Fallacies, fancies and unexplained facts, 3rd issue.....	xx
ALLEN, G., U. BIANCHI, AND C. Price. Thermodynamics of natural rubber elasticity.....	606	BUCKLEY, D. J., see Berger, M.	
ALLIED CHEMICAL CORP. Aniline, Book, 4th issue.....	xviii	BUECHE, F., AND J. C. HALPIN. Molecular theory of tensile strength.....	808
ALLIGER, G., AND I. J. SJOTHUN, editors. Vulcanization of Elastomers, Book, 4th issue.....	xvii	—, see Dudek, T. J.	
Anon., Selector Guide to Plastics Machinery, Book, 3rd issue.....	xvii	BUKHINA, M. F. Deformation and crystallization of supercooled rubber.....	404
ASSOC. GERMAN MACHINERY MFGS. Who Makes Machinery? Book, 4th issue.....	xix	BULLARD, H. L., see Spacht, R. B.	
ASTM Standards on Textile Materials, Book, 1st issue.....	xxiv	BUSSEMAKER, O. K. F. Review of tack in rubber.....	1178
AULER, H. Analysis of antioxidants and accelerators in rubber.....	950	—, AND W. V. C. VAN BEEK. New type of tackmeter.....	28
BALL, J. M. Biography of C. W. Bedford, 5th issue.....	xviii	BUTENUTH, G. Swelling of filled and unfilled vulcanizates.....	326
BANERJEE, S., see Taneja, H. L.		—, AND H. WESTLINNING. Abnormal freezing point of swelled NR vulcanizates.....	311
BASK, W., see Soininen, A.		BYL'EV, V. A., AND V. A. VOSKRESENSKII. Plasticization of PVC by SKN-40.....	770
BATEMAN, L., editor. The Chemistry and Physics of Rubber-Like Substances, Book, 2nd issue, Part I.....	xxiii	CAMPBELL, R. H., AND R. W. Wise. Vulcanization. I. NR with sulfur and benzothiazole derivatives.....	635
BATTELLE MEMORIAL INSTITUTE. Changing Economy. Booklet, 1st issue.....	xxiii	—, AND R. W. Wise. Vulcanization. II. NR with sulfur, MBT, and Zn stearate.....	650
BEATTY, J. R. Review of fatigue of rubber.....	1341	CAROTHERS, WALLACE HUME. Biography, 1st issue.....	xxviii
BECK, H. N., see Yerrick, K. B.		CHALFANT, D. L., see Schoenberg, E.	
BECKER, R. O. Heat resistance of neoprene vulcanizates.....	76	CHASSET, R., see Thirion, P.	
BEDFORD, CLAYTON W. Biography, 5th issue.....	xviii	CHERNOVA, ZH. D., see Belonovskaya, G. P.	
BEERBOWER, A., D. A. PATTISON, AND G. D. STAVFIN. Elastomer-fluid compatibility.....	246	CLARK, S. K. Review of cord-rubber elastic characteristics.....	
BELONOVSKAYA, G. P., B. A. DOLGOPLOSK, AND ZH. D. CHERNOVA. Oxidation of TiCl ₃	128	CORAN, A. Y. Vulcanization. III. Methods to characterize networks.....	668
BERGER, M., AND D. J. BUCKLEY. Structure effects in polybutadiene.....	169	—, Vulcanization. IV. Effects of compounding.....	673
BIANCHI, U., see Allen, G.		—, Vulcanization. V. Crosslinking in NR/S/MBT/Zn ion.....	679
BIKALES, N. M., see Mark, H. F.		—, Vulcanization. VI. Scorch delay kinetics.....	689
BILLMEYER, F. W., JR. Testbook of Polymer Science, 1st issue.....	xxv	CRAIG, DAVID. Obituary, 4th issue.....	xxxi
BILLS, K. W., JR., AND J. H. WIEGAND. Relation of properties to solid rocket motor failure.....	524	CURCHOD, J., see deMerlier, J.	
BLACK, A. L., see Smith, R. W.		DARR, W. C., see Steingiser, S.	
BLOKH, G. A., I. E. NEIMARK, KH. N. BORODUSHKHINA, D. B. BOGUSLAVSKII, AND YU. G. SHEVCHENKO. Molecular sieves in vulcanization.....	714	DE MERLIER, J., J. LEVEQUE, AND J. CUCHOD. Elasticity of rubber-bitumen road binders.....	457
BLUMEL, H. Structure and properties of polybutadiene rubbers.....	408	DERMODY, W. J., see Meltzer, T. H.	
BOGUSLAVSKII, D. B., see Blokh, G. A.		DEVINE, F. E., AND J. A. ROSS. Rheological properties with an extrusion and a rotational viscometer.....	491
BONOMI, G., see Fiorenza, A.		DOLGOPLOSK, B. A., see Belonovskaya, G. P.	
BORODUSHKHINA, KH. N., see Blokh, G. A.		—, see Bresler, L. S.	
BRESLER, L. S., B. A. DOLGOPLOSK, M. F. KOLECHKOVA, AND E. N. KROPACHEVA. Copolymerization of butadiene and isoprene.....	121	DUDEK, T. J., AND F. BUECHE. Tensile strength of EPR and SBR.....	818
		—, AND F. BUECHE. Solvent interaction and creep of EPR.....	804

SUBJECT INDEX*

	Page		Page
Abrasion mechanism for vulcanizates.....	291	Bylaws of Rubber Division, 4th issue.....	xxi
Accelerators		Calcium salts for heat-resisting neoprene.....	76
Analysis in vulcanizates.....	635, 709, 950	Carbon black	
Nitrile Rubber, see RUBBER REVIEW,		Effect on	
Nitrile rubber, No. 2, Part 2.....		Freezing point depression.....	323
Thermostability of sulfenamides.....	204	Indentation properties.....	14
UV spectra.....	709	Swelling.....	6, 326
Vulcanization reactions.....	557,	Tack.....	35
635, 650, 668, 673, 679, 689, 698		Tensile strength, SBR and EPR.....	818
Adhesive Materials, Book, 4th issue.....	xx	Thermal expansion.....	161
Adsorption of butyl rubber.....	1044	Electrical conductivity in rubber.....	348
Adsorption of N on carbon black.....	630	Electron micrographs of dispersions 333, 348, 835	
Aging, see also oxidation, antioxidants		Fibrous structure from black.....	847
Effect on		In EPR.....	229
Diffusion, see RUBBER REVIEW.....	1130	Interactions with rubber, see RUBBER	
Dynamic properties.....	866	REVIEW.....	1299
Rebound.....	724	Microstructure, see RUBBER REVIEW.....	1245
Stress relaxation.....	617	New dispersible blacks.....	1006
Tensile strength.....	725	Oxidized blacks in butyl rubber.....	1013, 1034
Neoprene vulcanizates.....	76	Particle size distribution.....	333
Polyurethane foams.....	38	Surface area by N adsorption.....	630
Protective agents.....	720	Carothers, W. H., Biography, 1st issue.....	xxviii
Tread compounds.....	985	Catalysts	
Analysis, chemical		Preformed organometallic.....	103
Antioxidants and accelerators.....	950	Used for	
Dry rubber content of latex.....	736	Butadiene/isoprene copolymers.....	121
Elastomers by gas chromatography.....	297	Cyclization.....	486
Extender oils.....	451	Poly (alkylene oxide) rubbers.....	1
Iodimetric determination of NR.....	733	Polybutadiene.....	409
Polybutadienes.....	408	Polyisoprene.....	103
Polyurethanes.....	146	Cement mortars/SB latexes.....	758
Sol-gel analysis.....	904	Chain scission in vulcanization.....	904
Vulcanizates.....	637, 650	Chemistry and Physics of Rubber-Like Sub-	
Aniline, Book, 4th issue.....	xviii	stances, Book, 2nd issue, Part 1.....	xxiii
Antioxidants		Chromatography.....	146, 297, 637, 651, 741, 950
Analysis in vulcanizates.....	950	<i>Cis-trans</i> structure.....	116, 123, 171, 412
Effect on fatigue, see RUBBER REVIEW.....	1361	Cohesive strength, see RUBBER REVIEW.....	1186
Evaluated in closed ozone system.....	583	Compatibility, elastomers and fluids.....	246
General study.....	720	Compatibility of polymers, see RUBBER	
Polymer solutions.....	129	REVIEW.....	1153
Volatility and vapor pressure.....	210	Compounding	
Antiozonants		Antioxidants and antiozonants.....	589, 720, 973
Analysis in vulcanizates.....	960	Automotive parts.....	866
Effect on fatigue, see RUBBER REVIEW.....	1361	British Compounding Ingredients, Book,	
Evaluated in closed ozone system.....	583	2nd issue.....	xx
General study.....	720	Dispersion and tensile strength.....	826
Modern tire compounding.....	973	Effect on rubber networks.....	673
Volatility and vapor pressure.....	210	Fatigue, see RUBBER REVIEW.....	1357
Asphalt/rubber.....	457, 1049	Molecular sieves.....	714
Autohesion, see RUBBER REVIEW.....	1153	Neoprene for heat resistance.....	76
Autohesion and Adhesion of High Polymers,		New dispersible blacks.....	1006
Book, 3rd issue.....	xvi	Nitrile rubber, see RUBBER REVIEW,	
Automotive rubber parts.....	866	No. 2, Part 2.....	
Bedford, Clayton W., Biography, 5th issue.....	xviii	Nodules in vulcanizates.....	342
Bitumen/rubber.....	457, 1049	Oxidized blacks in butyl rubber.....	1013, 1034
Bound rubber.....	1013, 1040	Plasticization of PVC with NBR.....	770
Bound rubber, see RUBBER REVIEW.....		Skid resistance.....	878
British Compounding Ingredients for Rubber,		Tack.....	28
Book, 2nd issue, Part 1.....	xx	Waxes in SBR.....	990
Bulk modulus of NR.....	857	Compressibility of NR.....	650
Butadiene/isoprene polymers.....	121	Conductivity of NR with carbon black.....	348
Butadiene/ene-yne diols.....	774	Copolymerization	
Butyl rubber		Book, 4th issue.....	xix
Blends with bitumen.....	474	Butadiene/ene-yne diols.....	774
Blends with polyethylene.....	144	Butadiene/isoprene.....	121
Dynamic properties.....	866, 1019	Nitrile rubber, RUBBER REVIEW, No. 2,	
Fatigue, see RUBBER REVIEW.....	1341	Part 2.....	
Friction.....	394, 878	Poly (alkylene oxide) rubbers.....	1
Identification by gas chromatography.....	297, 748	Cord-rubber elasticity, see RUBBER RE-	
Mechanism of abrasion.....	291	VIEW.....	1365
Pyrolysis.....	941	Correspondence course, 2nd issue, Part 1.....	xvii
Reinforcement with oxidized blacks.....	1013, 1034	Craig, David, Biography, 4th issue.....	xxxii
Thermal expansion and T_g	160	Creep of EPR and solvent interaction.....	894
Ultimate tensile properties.....	792	Creep in relation to tensile strength.....	808

* See also Subject Index in RUBBER REVIEW, 2nd issue, Part 2.

	Page		Page
Crosslinking, see vulcanization		Viscoelastic relations	386
Coagents for EPR	229	Wet surfaces	878
Crosslinked polyethylene	143	Glass transition temperature	
Effective sulfur crosslinking	221, 225	Butadiene/isoprene copolymers	124
Filled and unfilled vulcanizates	6, 326	Butyl rubber, NBR, PB, SBR	138
Kinetics	668, 673, 679	By NMR for NR	268
Rubber networks	668, 673, 679	Effect of combined S	222, 226
Studied by freezing point depression	311	Various elastomers	160
Studied by swelling	563, 571, 576	Relation to friction	386
Tensile strength	777, 792, 808, 818	Relation to tensile strength	795
Thermal stability of crosslinks	795, 908	Gordon research conferences, 1st issue	xxxiv
Crystallinity and crystallization		Hardness and friction	878
By thermomechanical method	139	Heat resistance of neoprene	76
Crystallization of Polymers, Book, 3rd issue	xviii	Howland, Louis H., Biography, 4th issue	xi
Effect on diffusion, see RUBBER RE- VIEW	1137	Huggins' parameter	326, 446, 451, 894
In EPR	140	Hydrocarbon tests, Book, 1st issue	xxi
In NR	333, 404	Hypalon, identification by chromatography	301
In polybutadiene	139, 173	Identification of elastomers	297, 741
In stretched elastomers	404, 839	Indentation failure test	14
Kinetics	404	Indentation for thermomechanical data	368
Cut growth, see RUBBER REVIEW	1341	Indenter for abrasion	291
Diffusion in ozone	584, 728, 973	Infrared spectra for vulcanization study	652
Cyclized rubber structure	486	Infrared structure	
Damped rods and beams	378	Butadiene/isoprene copolymers	123
Damping, see RUBBER REVIEW	1190	PB, NR, and SBR	410
Damping of elastomers and structures	370, 866, 1022	Injection molding of rubber	88
Dictionary of Plastics, Book, 4th issue	xx	Inorganic Polymers, Book, 2nd issue, Part 1	xix
Dielectric and NMR correlations for NR	268	Instruments and apparatus	
Diffusion and nodule formation	338	Abrasion apparatus	291
Diffusion, RUBBER REVIEWS	1065, 1153	Extrusion viscometer	503
Dilation of NR	615	Gas chromatography	744
Dispersion and tensile strength	826	Flexcracking tester	187
Distribution function for tensile strength	826	Friction apparatus	387
Dynamic dampers, see RUBBER REVIEW	1218	Mechanical testing for propellants	542
Dynamic properties		Ozone system	583
Butadiene/isoprene copolymers	126	Resonant beam tester	866
Butyl rubber with oxidized blacks	1022	Tackmeter	28
Filled NR	336	Tackmeters, see RUBBER REVIEW	1178
Polybutadiene	427	Tension measuring apparatus	896
Resonant beam tests	866	Tester for indentation failure	14
